

# Capability Statement

Butlers Yarwun Quarries is a family owned and operated business. The land has been in the Butler family since the early 1900's and the quarry, which has been operating since 1985, has a lifespan of 160 years.

Butlers Yarwun Quarries is built on solid family values supported by good management practices and a loyal team of experienced people. We supply quality quarry products for the region's growth and development throughout the construction industry, civil construction sector, residential estates, rural roads and driveways. We employ local people and fully support local business and the community.

## Capability Information

Butlers Yarwun Quarries are situated within the Gladstone State Development Area and are the local quarry when it comes to construction materials. Our core business is to supply and deliver road base, aggregates, gabion – rip rap, armour rock, topsoil, clay, builders concrete mix and decorative stones within the Gladstone region. We ensure all our contractor delivery operators are fully trained and compliant in Chain of Responsibility. Where possible all products are delivered PBS for efficiency.

## Quarry Registration

TMR Quarry Reference: RQ162

Registered Overall Testing Frequency Level: Low

Nominated Products:

- Concrete Aggregate
  - Cover Aggregates (Types A, B, C, & D)
  - Unbound Paving Material (Types 1, 2, & 3)
- All material NATA tested.

Our rock source is high-grade thermal metamorphic. It is durable and has a high resistivity to abrasion making it suitable for armour, rock for engineering purposes, gabion baskets and wire mattresses, concrete aggregates, aggregates for sprayed bituminous surfacing, asphalt aggregates and railway ballast.

Petrographic report available on request.

## Customer Service and Market Response

At Butlers Yarwun Quarries, service is paramount. We pride ourselves on having all materials on hand to meet customers' needs - delivering it on time and within budget. We recognise that the continued growth and success of our company has been based on developing close and long-term relationships with our clients, providing the best value solutions. Butlers Yarwun Quarries delivers quality outcomes while giving back to the community. Our values guide our decisions, drive our actions and determine our results. They are the foundations on which we build.

## Capacity

Butlers Yarwun Quarries has invested in quality mining and processing equipment which is kept well maintained. Our production volumes can exceed 250 tonnes per hour allowing us to supply high volumes on time to our customers. Our precise site layout and focus on continuous improvement has assisted us to maintain a high standard in our operations and overall customer satisfaction.

## Quality

Butlers Yarwun Quarries has implemented a stringent Safety Management and Quality Management Systems. We ensure that quality control is maintained throughout the extraction

and crushing and screening process, right through to delivery of the product. This allows tracking of material from the location of the extraction through to the customers project site. Our quarry products are subject to a rigorous schedule of testing and quality control to ensure consistent quality. This plan is fully communicated to all staff within the business to ensure best outcomes in terms of product and overall customer satisfaction.

### Staff, Training and Skills

Our Quarry Manager holds a Senior Site Executive certification and has over 35 years' experience in the extractive Industries. Our quarry operations crew are all multi skilled, fully trained on all processes and equipment and undergo ongoing training and development. This structure allows us to be responsive to our clients' needs with the flexibility and support required to accomplish their project goals.

Butlers Yarwun Quarries proudly employs indigenous workers, with 15% of our workforce being of Aboriginal decent.

### Environment

At Butlers Yarwun Quarries, we understand that the future of our business depends on our respect for the environment in which we operate and the sustainability of our practices. We continuously strive to improve our environmental management policies in order to minimise the impact we have on the environment where we work. Butler Yarwun Quarries has a high focus on reducing our carbon foot print. Our office operates 100% on a renewable energy solar system.
